Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

After further review and consideration, the indicated allowability of claims 21-24 is withdrawn.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Harkness (5,467,992) in view of Carney (6,213,887). Claim 21, Harkness discloses a device support member worn around a person's head and an attached laser light (abstract) generating a linear alignment beam of light visible to the person onto a surface. Harkness discloses a spot of light on the surface but does not disclose a line of light on the surface. Carney teaches a line of light. Claim 22, the device is capable of being attached to a support on a person's head. Claim 23, the surface is the ground, see figure 3. Claim 24, the stroke is capable of being a putting stroke, see figure 3. One of ordinary skill in the art would change the spot of light to a line of light by routine experiment since Carney suggests the use of a spot or line of light is interchangeable.

Response to Arguments

After further review and the affirmed response from the BPAI of the apparatus claims, the indicated allowability of the method claims is withdrawn. Since it has been proven that the apparatus as claimed by applicant is not patentable over Harkness in view of Carney the method claims are also not patentable as claimed. The instant claims are method steps providing a function of the apparatus. The device of Harkness in view Carney performs the same function as shown in the above rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raeann Trimiew whose telephone number is 571-272-4409. The examiner can normally be reached on Mon-Fri 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eugene Kim can be reached on 571-272-4463. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
